

## Certification Statistics

by Brian Cassity, Certification Liaison

Demand for ISA Certified Arborist exams has been higher this summer. This is a good thing. Two exams have been offered, with nine new candidates sitting for the exams. There will also be an exam offered in conjunction with the SMA international conference in Milwaukee this fall (evening, Monday, 9/26). If you are interested, get it on your calendar and apply. Registration will be capped at 25 and I'm not sure what the draw will be from conference participants.

There may potentially be one final exam for the year offered with the WAA fall seminar. This has not yet been formally scheduled. Check with Ian Brown ([ian.brown@milwaukee.gov](mailto:ian.brown@milwaukee.gov)) or the ISA website for further exam details.
