

Certification CORner

DID YOU KNOW?

- ◆ As of May 31st, 2006, there are 18,693 Certified Arborists in the world.
- ◆ This year at the Minneapolis conference, the ISA will be celebrating the 30th anniversary of the International Tree Climbing Championships.
- ◆ Many ISA Certified Arborists have requested a history of their CEU's. Until recently, individuals would have to call to obtain these reports. Now, they can simply go to the secured section of the ISA Website, type in a user name and password, and click on "Continuing Education History Report" on the left. However, please remember, the data will only date back as far as 2000.
