

# TREE FUND WANTS YOU!

By Gary Majeskie

Did you know that the WAA may not have any representation in the Tour des Trees this year?!! We are currently looking for riders to represent us in the ride. If you are interested in helping to raise money for tree research and pedaling along the beautiful California coast, please contact Lynn Day at 630-221-8127 or at [lday@treefund.org](mailto:lday@treefund.org).

The main tour will consist of a scenic ride along the coast of California that will give us the largest audience we've had for our message in a long time. For those who choose to transport themselves to Hawaii, Tour des Trees 2007 events will wrap up with a spectacular one-day tour on Oahu, culminating in the traditional ride into the field day at the International Society of Arboriculture conference in Honolulu. Riders will be able to choose a traditional tour in beautiful and easy-to-reach California, a single-day extravaganza in sunny Hawaii, or the whole package! Check out the tour map!

The TREE Fund

*Tour des Trees*
