

Pre-announcement of 2009 NUCFAC Grants

The National Urban and Community Forestry Advisory Council (NUCFAC) has revised its grants program and timeline for applications. The attached pre-announcement describes the new process and format. The request for proposals will be announced in late November, but

interested applicants may want to get started by registering since it sounds like it may take up to two weeks for the registration step to get processed. More information at <http://dnr.wi.gov/forestry/UF/resources/Insider/pdf/2009NUCFAC-Preannouncement.pdf>
