Root Zone Management and Soil
Decompaction

Al Zelaya Davey Tree “I-Tree Training”

Linda Williams WIDNR, Insect and
Disease

Todd Kramer and **Norm Hall** in the
climbers corner

What's New for the 2010 WAA Annual Conference?

- Arborist intro track—a two-day track that covers eight key topics for the folks new to the field or anyone who wants to brush up on basic skills: climbing basics, tree id, pruning, planting, insect and disease, tree structure risk assessment, watering and fertilization.
- A real tree in the exhibit hall for the climbers

We are working on other new surprises for the conference! Look for more details on the website and in the brochure to be mailed in the coming weeks.
