

We need your help!

All WAA members,
Please check your local phone books for illegal or misleading Ads. We frequently find Tree Services that advertise or suggest membership in the WAA, ISA, TCIA when they are not. Also, some claim to be certified arborists and are not. They must include a certification number if they

claim to be certified as this is an individual achievement, not a company certification. Please make a copy of the false or improper Ad and forward to:
