

Trailer Safety & Load Securement

Mike Stanonik – Operations Supervisor/Safety Training Coordinator, City of Appleton

Description of Presentation

This presentation will cover the components of a trailering system, identifying load capacities, load distribution, and load securement.

Speaker Bios

Mike Stanonik was a production arborist with the City of Appleton for 15 years and a long-time competitor and volunteer with the Wisconsin Tree Climbing Championships. In his current role as an Operations Supervisor and Safety Training Coordinator, Mike is responsible for ensuring a positive safety culture, safe working environment and meeting safety compliance standards for a variety of trades within Public Works.
