

Creating, Enhancing, and Managing Habitat to Support Urban Wildlife – David Drake

This presentation will discuss habitat needs of wildlife, focusing on woody vegetation and urban-adapted species. Different types of wildlife will be discussed, as well as an assortment of management practices that can benefit homeowners and renters, municipalities, and wildlife.

Presenter Bio –

David Drake is a Professor and Extension Wildlife Specialist in the Department of Forest and Wildlife Ecology at the University of Wisconsin-Madison. His research and extension programs primarily focus on wildlife and wildlife damage management in human-dominated landscapes. David received his Ph.D. in Forestry from North Carolina State University, a M.S. degree in Wildlife and Fisheries Sciences from Texas A&M University, and a B.A degree in Biology from Macalester College.
