

On-site Soil Assessments for Arborists – Luke Scheberl

Urban tree managers must include soil health when managing tree health. We will discuss the importance of several soil parameters, how to quickly measure them in the field, and their role in tree health. By understanding the soil, we can better understand and support the trees that we care for.

Presenter Bio –

Luke Scheberl is an Arborist Technician Instructor at Mid-State Technical College in Central Wisconsin. He has over 10 years of green industry experience, is an ISA certified arborist, and holds degrees in Urban Forestry and Soil Science from UW-Stevens Point. His passion is taking care of trees, and that starts with healthy soil!
