

Call the Utility, Don't Take Chances – Brian Smith

Talk about the risks of working around power lines. Examples of incidents and discussion of a friend/co-worker fatality. The take away from the presentation is to contact the utility when your tree jobs have electrical hazards.

Presenter Bio –

Brian attended MSTC from 2001 to 2003 for Urban Forestry. He worked in residential before working on the utility side from 2007 to present. Became the first safety liaison in the County. ISA utility certified, CTSP and CUSP
