

Plant Problems to Watch for in 2026 – Brian Hudelson

Learn about plant diseases and disorders that are making a splash during the 2026 growing season and about diseases and disorders that might end being an issue by the end of the growing season. The presentation will include tips on how to identify the diseases/disorders (if possible) and information of management.

Speaker Bio –

Brian Hudelson, affectionately known as “Dr. Death”, is the director of the UW-Madison Plant Disease Diagnostics Clinic (PDDC). The PDDC provides expertise in diagnosing plant diseases and other plant disorders, and information on plant diseases and disorders (including their management) to a wide range of clientele throughout the state of Wisconsin and beyond.
